- Spending controls on all company cards
- Management information

ATM's

- Increases footfall to the store
- Creates a secondary income
- Save on banking cash fees
- Improved customer experience
- Management information

Sean Connaughton
Unitas Procurement

"Accept Cards are one of our key partners at Unitas.

Their industry knowledge and professionalism, along with the significant cost savings and efficiencies they can make, help our partnership with Plan For Profit stand out.

I highly recommend that you work with the Accept Cards team at the earliest opportunity to review your payment facilities.

Accept Cards will either reveal great savings and/or efficiencies or confirm you have the best solution for your retail business. We all love peace of mind. Working with Accept Cards gives just that."

Bates Office

Bates Office is one of the UK's largest B2B service providers, with three national distribution centres, 130 employees and its own fleet of vehicles. Bates Office began trading as a small typewriter shop in the 1930s.

From this we have grown into a major national supplier of business productivity supplies and services, delivering to customers across the UK but we remain a family-run business with a longstanding heritage.

Our interiors business has developed into a fully fledged commercial building fit-out provider, with its own 'Bates Studio' stand-alone brand.

Chirp Protect

Chirp Protect is an independent business specialising in bringing the next wave of retail security to help prevent and deter shoplifting. Our innovative system is designed for every shape and size of store, delivering affordable, effective protection without the complexity or disruption of traditional installations.

With its plug-and-play design, Chirp Protect can be deployed quickly and with minimal disruption to store operations. Retailers can tag items in minutes, and if a product is tampered with, the tag instantly raises an alarm, giving staff early warning that theft is in progress. The tags also trigger as they pass through exit points and continue to sound beyond the store, ensuring thieves are deterred and staff are alerted.

Chirp Protect integrates seamlessly with existing retail systems: theft alerts can be channelled through audio devices such as headsets, and CCTV systems can be synchronised to time-stamp incidents, strengthening both in-store response and evidence capture.

Proven in partnership with leading retailers in the convenience and forecourt sector, as well as across wider retail environments, Chirp Protect delivers measurable results against shrinkage. By making cutting-edge loss prevention accessible and affordable, we give retailers a significant step forward in the fight against retail crime.

What our customers say

'We have been using Joalpe for supply of goods for a number of years. During this time, they have always supplied on time, to specification and at the right price. Even when we needed something obscure that you would not normally find there is always an appetite to listen and create to support our business. The team at Joalpe have gone out of their way to find what we needed and supply it when we wanted it. I would highly recommend them to anyone looking for a 1st rate supplier that gives an honest and open service to its customers and actually gives excellent customer service.'

Matthew Algie

Matthew Algie is a coffee roaster, owned by Tchibo Coffee, with registered offices at 16 Lawmoor Road, Glasgow, United Kingdom. The company sells its coffee to coffee shops, bars, restaurants, hotels and businesses retail sector, across the UK & Ireland and also offers coffee machines for hire - supported by a network of field engineers as well as a range of coffee-related equipment and complementary products through its sister-company Espresso Warehouse. Additionally, Matthew Algie also provides SCA accredited barista training courses, taught via their training campuses based in London, Glasgow & Dublin.

Around 90% of Matthew Algie's green coffee comes from Fairtrade co-operatives. The company has contributed over \$3million (US) to community and farm projects through Fairtrade levies to date. The remainder of its green coffee comes from independent coffee farmers, with whom the company has direct trading relationships. Matthew Algie uses traditional Probat drum roasting with advanced software and is thought to be the only coffee roaster to use cryogenics to produce its ground coffee. Matthew Algie sells both filter and espresso coffees, including three triple certified espresso coffees (Fairtrade, Rainforest Alliance and Organic) and the Freshly Roasted espresso range, with the promise of being delivered to customers within 7 days of roasting.

As part of the Reconomy Group, we bring together decades of expertise, cutting-edge technology, and a people-powered approach to deliver bespoke, end-to-end waste solutions. From skip hire and scheduled trade waste collections to emergency spill response, equipment hire, and sustainability consultancy, we help businesses reduce costs, improve efficiency, and meet their environmental goals.

Because we operate independently with a vast network of pre-approved supply partners, our customers benefit from tailored services, transparent reporting, and full compliance support. Our tech-enabled platform, including the Reconomy Connect Portal, ensures fast, accurate data and seamless service delivery. We're proud to combine operational excellence with strategic insight, empowering UK businesses to unlock the value of their waste and move confidently toward zero waste and a circular economy.

Speedibake

Speedibake is a UK-based bakery company known for crafting a wide range of frozen baked goods, including muffins, mince pies, baguettes, and garlic breads.

Founded in 1984, the company now operates from a single site in Bradford, Yorkshire, where it produces high-quality products for retail, foodservice, catering, and export sectors.

Proudly part of Associated British Foods (ABF), Speedibake combines traditional baking expertise with modern innovation, supported by a diverse team of over 350 staff.

Their mission is to build a sustainably profitable bakery business while staying on trend and delivering delicious, tailored bakery solutions.

West Country Milk

West Country Milk was established in the year 2000 and is still very much a family business supplying in excess of 40m litres of milk per year. For more than 15 years West Country Milk has grown its business on the basis of providing Dairy Products that are farmed, processed and delivered locally to each site. We are proud to work with 'local' suppliers and determined to support a sustainable future for British Farmers and local dairy producers.
